

Welfare Unit

Bence

- Sub frame:** To suit Multilift LHS260.51 and type 190-51 ground loading hook lift systems. The sub frame comes complete with polyurethane coated rear rollers
- Bodywork:** The body is constructed from a 50mm thermal board to the sides, floor, front and internal partitions to give good thermal and noise insulation. The interior face of the unit will be a white durable wipe clean surface. Durable poly-flooring flooring.
- Windows:** 2 windows of 4mm toughened glass are fitted to the body. One of the windows to be designated as an emergency escape hatch, this will be fitted with a ring pull into the filler strip. Optional additional windows can be added as per customer preference.
- Interior:** The interior is divided into 3 main areas. The rear of the body contains 2 W.C's. The remaining space is divided into a mess/rest area.
- WC:** Each WC area will be fitted with a Thetford Marine cassette toilet. The cassette is removable from the unit through a sealed access door. Storage units are fitted within the WC areas.
